1. Claims 29-32, 35-38, and 43-46 are presenting of examination.
2. The examiner takes this opportunity to correct his position to change 112/1st enabling requirement to 112/1st written description requirement.

3. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

4. Claims 29-32, 35-38, and 43-46 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Claims 29-30 & 35-36 & 43-44 state the limitations of "filtering the packets to produce packet data by retrieving a predetermined address, comparing the predetermined address to the source and destination addresses for a current packet, and retaining the current packet when one of the source and destination addresses matches the predetermined address".

Claims 31-32 & 37-38 & 45-46 state the limitations of "filtering the packets to produce packet data by retrieving a predetermined port address, comparing the predetermined port address to a source port address for a current packet, comparing the

predetermined port address to a destination port address for the current packet and retaining the current packet when one of the source and destination port addresses for the current packet matches the predetermined port address”.

These limitations are not fully supportive in the specification.

Therefore, it can be seen from the above discussion that claims 29-32, 35-38, 43-46 are rejected under 35 U.S.C. 112, first paragraph.
